

Charities Working to Prevent and Cure Breast Cancer

There are more than 1 million non-profits in America. Of those, over 700 were founded to combat breast cancer. How is a donor supposed to distinguish between them all?

Charity Navigator, America's premiere independent charity evaluator, works to guide intelligent giving by evaluating the financial health of over 5,000 of America's largest charities. Donors can turn to Charity Navigator's free website, www.charitynavigator.org, to quickly identify those charities that efficiently utilize donations to pursue their mission of curing and preventing breast cancer.

Charity Name	Fundraising Efficiency	Fundraising Expenses	Program Expenses	Administrative Expenses	Primary Revenue Growth	Program Expenses Growth	Working Capital Ratio (years)	Star Rating	CEO Salary
Living Beyond Breast Cancer	\$0.07	7.9%	83.6%	8.4%	20.7%	16.7%	1.71	4	\$90,000
